INVITATION

« DANCE FOR THE CLIMATE »

Quebec's weather forecasters invite you to come out to a unique family event bringing together all of the people who want to *dance for the climate*. This initiative is part of the movement that originated in Europe in 2008, in an effort to make people aware of the future of the planet and the negative impact of climate change.

"Dance for the climate" participants will all be dancing together to the music of the upbeat Irish group, U2. The dance choreography for the event can be found on various Internet sites, including the www.parcjeandrapeau.com website.

Date: Saturday, February 6
Time: 2 p.m.
